

Knowledge Mobilization Plans

 **What are your:** clear, specific, & measurable goals?

What steps will you take to:

...provide ongoing opportunities for researchers, practitioners, and other critical partners (e.g. community groups, parents, students) to connect and engage with each other and with evidence, share knowledge and skills, collaborate and co-create knowledge?

...create and disseminate actionable evidence informed resources that make it easy for practitioners and other partners to integrate evidence-informed practices into daily routines?

...provide ongoing capacity building for using and sharing evidence?

...engage leaders at every level to model and champion knowledge mobilization practices?

...monitor and evaluate the implementation of your KMb plan and using for future planning ?

...incentivize knowledge mobilization and evidence use?
